indicator	difference_points	p_value	conclusion
Day 1	-0,59	0,0744	Inconclusive
Day 7	-0,82	0,0016	gate_40 retains less (significant)

Share of players by segment

Day-7 retention rises sharply with engagement.

segment	Sessions/week	suggested_action
Highly active non-payers	14,52	Convert: entry-level offer
Low-activity non-payers	4,51	Re-engage: reminders and events
Payers	9,53	Retain: loyalty perks

Public datasets (Kaggle). Segments look simulated: they mostly split payers from non-payers and session frequency, not real populations. Retention is not revenue.
